BLACK AND WHITE.

Sambo, although he cannot vote, is destined to exet an important influence on the approaching contest for the Presidency; and as the silent part-contest for the Presidency; and as the silent part-ers who furnishes the main capital of a political firm, whose bids are in the market, he is deserving, in diplomatic phrase, of 'distinguished consideration.' Until within a few years, he lived happily in his Southern home—his sleek person, shining chany face, hearty yah yah! presenting to eye and ear the very bean ideal of contented labor. But abolitionism found him at work among the cotton and tobacco, and informed him that he had a higher destiny; instituted him to sale. m, whose bids are in the market, he is deserving, or and nobler destiny; instigated him to robel gainst the patriarchal government of his superiors, and enticed him away from his bread and butter. It felt his woolly head, and informed him that it contained quite as much intellect as his master's, and that his brawn and much would be better loyed in striking down those who fed, sheled, and provided a home for him in his declining Sambo listened, and as the arguing the soil. Sambo Intened, and as the argu-ments were as clear as that two and two make five-which is about the character and extent of his mathematical knowledge-he believed. Straight-way he became buy, saucy, and disobedient. festations of a capacity for self-governent, instead of improving his condition, checked e disposition to remove his disabilities by a safe and graduat process, which had begun to manifest feelf throughout the South. This is all that abolitionism did or can do, for Sambo; and each centiary effort that it makes with his co-operation. all only serve to rivet and tighten his chains an never accomplish the overthrow of the Ch and the Constitution; and according to its official prochatation, it is only over their ruins that the cools of Sambo can be accomplished. If that should ever be made an armed issue, Sambo, inead of being emancipated, will be exterminated And while Abolitionism is thus embittering the condition of the blacks, and implanting hostility and rancor between masters and dependents who

had so long dwelt together in peace and barmony, what is it doing for the whites? It is breaking at only party associations and organizations but the friendly relations of State with State, and section with section. It strikes directly at the national unity, and glories in the deed. Even now, at the very time when the example of the United States promises to republicanize the world, it preaches a crusade against the Constitution, in the servance of whose compromises lies the only e of national perpetuity.
This is what abolitionism is doing and seeking

to do for black and white, and feality to its fauntiism is treason to our country and its institutions.

From the Voice of Freedom (!)

The South evidently has an interest that con flicts with the North,' So saith 'S. G. M.' in the Voice of Freedom of May 11th. Did not the South on the North in the bloody times that tried men's Aevolution, and aid in achieving our glorious in-dependence? Did they not send delegates to condependence? Did they not sent deregates to con-sult with ours, in a mutual convention, for the greatest good of the entire country? Did they not adopt a Constitution and form of government which was assented to by all the States? Was not that Constitution founded on mutual concession and compromise? And did not that Constitution guarantee to the South certain rights and privileges, and among others the right of holding slaves? Has not the accursed institution of slavery been fostered under the wings of the Constitution, and its rights (if it have any) been carefully guarded by the provisions of that solemn instrument? Have not further and noble work of advancing the great cause the Massachusetts regiment of volunteers, returning from the glorious war? with Mexico, arrived in the Mad River Railroad cars this morning, on the slaveholding States, and have these men (with the exception of the great Mexican warrior who now sits in the Presidential chair) done any thing detrimential to the great interests of the country? Have they not adhered to the Union? Did not the immortal 'rather of his country,' in his farewell address, tell his countrymen 40 'frown upon the first attempt at disunion'? Shall not a candidate for the Presidency be selected from the entire body of the people, without regard to the North, South, East or West? Shall not the Whigs of Vermont the country, and select a candidate for the Presidency, whom they can elect, and to whose patriotism. egrity and futhfulness they can confide the in-ests of this Republic? Do we not need a man at the head of affairs who will be instrumental in rescoing the country from the great debt and disgrace not which it has been plunged by a weak, wild, and pusillanimous administration? Are not all the inests of this nation common? What is that is terest which the South has, which conflicts with the North? Is it slavery? Is it the cultivation of tobacco and cotton? Is it a lack of enterprise in manufactures? In what way does Southern slavery prejudice Northern interests? If that heave ing institution, tied together as it strained nerves and racked sinews, and cemented as it is by the blood streaming from three millions of human bodies, were immediately and uncondi-tunally abolished, what would be the effect on the interests of Northern labor? Would not the ne groes make their way to the Northern States, and ause a reduction in the price of labor, besides adding a large amount of pauperism to the country, every reasonable Southern man will admit, is founded in wrong and unjustifiable oppression. I am no apologist for it, but should we do evil that good may come? Should we give unqualified and unconditional freedom to three millions of ignorant, brutalized and degraded human beings, who are not in the least degree restrained by self-denial and personal government, entirely unnequainted with the first principles of civil liberty and the just and true grounds of republican government?

From the Boston Olive Branch. DISSOLUTION COMING.

We have before spoken of the attempts of the Garrison party to dissolve the Union of the United States. But we have never supposed the good sease of the public would allow this wild project mount to any thing more than to furnish a litto amount to any thing more than to turnsh a litdisamusement to the lookers on. It seems, however, that there is likely to be any quantity of
amusement of this kind the present season; for
we understand that at the meetings last week, a resilve was passed to hold one hundred Conventions
in different parts of Massochusetts, this year, with
the avowed design of effecting a dissolution of the
Union! And we learn that funds were raised for the purpose of carrying that resolution into effect, Now, of course, we must look out for something. What can possibly prevent old Massachusetts from adily out of the Union? Surely, these being torn bodily out of the Union? Surely, these one hundred Conventions will exhibit a tremendous labor, and something more than a mouse will be brought forth. Massachusetts must at any rate leave the Union! And the efore all those who wish to abide by the Union, had better leave the State as soon as possible, before the house falls about their ears. Garrison & Co. are determined to get the treatment of the part of the control of the c 'look out for the engine when the bell rings.' We find ourselves in a very undesirable fix. What shall we do? LETTER FROM HENRY C. WRIGHT. NEW LIME, Ohio, Tuesday, 4 P. M., June 27, 1848.

I am here in this beautiful spot, which you have reason to remember with deep interest. I am in the meeting-house of the Come-outers, in which the Fair was held, when you were here last season, and close by it stood the big tent, where you met 5000 to urge them on to battle and to victory against Slavery. 1 am here in that house-people are here from 15 and 20 miles around.

After leaving beautiful New Brighton, we had a grand meeting in Lowelville, Mehoning county, and the above - Lib. there met many precious spirits. One man, deacon of a Presbyterian Church, came to the meeting to do battle against us-but he sat awhile, and turned and this gentleman is published in the Almira Gazette, ran, without firing a gun. He went about the vil. an extract of which is given below ; June 1990, 1848.

Then, Sunday the 25th, I left Youngstown at 2 o'clock, P. M., in a buggy, leaving Charles to finish the meeting there, and dame twenty-five miles to Mecca, to attend a lecture which had been appointed there. I found Mecca in a great state of excitement. The Congregational and Methodist Churches had been closed against me, and the Methodist pricat, WM. HURD, told his people not to go near me—that I was a Garrison Infidel, and as a Christian minister, he urgently entreated his flock. a Christian minister, he urgently entreated his flock, his sheep, not to go. He informed them that I was the vermin, and I was the cat, come to catch them. The priest, as the cunning old rat, warned them, the mice, to keep away. So, the mice, alias the Methodiat Church members, some of them, concluded to go to the meeting and hear for themselves—and they acknowledged they heard no infidelity, except to the pro-slavery and pro-war religion. We had a great time, making "HURD" our text. Monday, yesterday, Charles came up from Youngstown, and set day, Charles came up from Youngstown, and we Star.

These are certainly strange times, and fanatics of hands! such buying of books! such gossipping, claim the right of blowing off their extra steam, as well as other people. So brother Garrison must have his day, we suppose. And when he and id genus onne have got through, we shall probably find old Massachusetts in stafu quo. me in my European tour and labors, and my residence at Graesenburg, and they felt that they had a right to claim me as an acquaintance of long standing, and shook my hand till my own was weary. I am again in the Come-outer house in this beautiseveral came in, and we had a good meeting, and it was good to be there, for there was the spirit of the Lord and of Liberty. At sundown, a cloud of inky blackness rose above the horizon in the north-west, and the forked lightning shot across its dark and fearful bosom. It rolled up-up-up, and came nearer and nearer. We came to the meeting-house, and the people, having milked their cows, and set the milk to be converted into curd, and into cheese, the leading business of this region, came to the meeting, and took their seats in goodly numbers. As darkness settled down, the flashing lightning illumilook out these windows into palpable darkness, that very moment is rendered more horribly palpable by the gleaming lightning. Charles is now speaking, following up my position touching the sacredness of the human person. The men and women sit unmoved and calm, listening to the arguments of so closely. BJ * Yes' it cannot be denied—the slaveholding lords of the South prescribed, as a condition of their assent to the Constitution, three special provisions to secure the perpetuity of their dominion over their slaves. The first was the immunity, for twenty years, of preserving the African slave trade; the second was the stipulation to surrender fugitive slaves—an engagement positively prohibited by the laws of God, delivered from Sinai; and thirdly, the exaction fatal to the principles of popular representation, of a representation for slaves—for articles of merchandize, under the name of persons. We can hail him to the rescue, and Rough and Ready, will be the motto of the South!

The Southern (Ala.) Advocate, of July 2, contains an address from Nicholas Davis, a guliernatorial candidate, 'to the voters of Alabama!' He says, after denouncing the 'abolition fanatics' and loathsome Wilmot Proviso' of the North,'

cloathsome Wilmot Proviso' of the North,

'I sometimes think I can see the workings of a kind Providence in our behalf. If the Mexican war has exposed and made manifest the dangers which threatened the existence of our Union, it has also, I confidently hope and believe, in the Hero of the war, the savior of the country. In little more than a year the whole country has witnessed with astenishment and pride, in the character of General Taylor, much to remnd us of the stern virtues and the simple grandeur of the Revolution. The phulic voice has already called him to the Presidential chair. He possesses, in advance, the unwavering confidence of his fellow-citizens. He is a Southern man, and a staveholder. An adaptation like this to man, and a staveholder. An adaptation like this to the state of things around us, it seems to me, has occurred, but rarely in the history of the world. May it prove to us the means of deliverance from impending dangers!

The editor of the Southern Advocate, speaking of Capt. Davis's circular, says:

A sense of common danger has given a simul-A sense of common danger has given a simil-taneous direction to all Southern minds; and in Gen. Taylor they see the only man who can usite and harmonize the country, calm the Northern feeling, and compromise the question of slavery in new territory. This new and strange move shows the only hope of the South is in Gen. Taylor. He the only hope of the South is in Gen. Taylor. He alone will be able to preserve harmony, and com-promise the conflicting feelings of the two extremes of the Union.'

The same number of the Southern Advocate contains a letter from Samuel F. Rice, a candidate for Congress, designated by the Jacksonville Republican, as the chosen leader and standard-bearer, of the Democratic party of his district, in which he makes the following avowal:

makes the following avowal:

'I am in favor of Gen. Taylor, as the Southern candidate for the Presidency. Many Democrats in other States are for him. Senator Nichols, who was once a United States' Senator, and is now a Senator in the Louisiana Legislature, and who has ever been a true Democrat, has nominated General Taylor for the Presidency in the Louisiana Senate, Senator Nichols lives in the same State with Gen. Taylor, and knows him well. And whilst Gen. Taylor, are those in the same State with Gen. Taylor is claimed to belong to both parties, with the evidences before me, and the great issue before is as to Abolition, I feel sure that he may be safely trusted by Southern Whigs and Democrats.

He is a safe man. With him the South is safe against the dangers of abolition, and his country is safe against external and internal dangers. I believe that as President, he would be as impartial and as just as Washington.

We are oblized to defer further extracts till

have the confect to deter further extracts till a further time—simply inquiring, Do not the South know their man? Have they, with united voice, brought forward Gen. Thylor, and enforced him upon the Whigs of the Union, to defeat the cherished purposes of those with whom he is connected by every consideration of birth, education, bubit, in-terest and principle? It is madness and folly to indulge the thought.

The Macon, Ga. Messenger, a Whig paper, held the following language immediately subsequent to the nomination of Gen. Taylor by the Georgia Whigs, last summer:

Formate is it that the Whigs are almost, if not quite unantimous in his support. Still more fortu-nate is it, that there are scores and hundreds of Democrats in the country who are resolved to rally under the noble standard of 'Rough and Ready. Under such circumstances, we cannot doubt the result. The Democrats of Georgia have greater reasons than their brethren of New Jersey and Pennsylvania to advocate Gen. Taylor. He is a Southern man, both in theory and in fact. Identified with our institutions and loving them, his character is such, novertheless, as to enable him to accomplish great good for the nation at large. Let us then, all forget past differences, and rally like breffren around him who can best protect and defend both our rights and our institutions.

From the Natches Courier-(Whig.)

It is well understood by those who were in the at is well understood by those who were in the secret of things at Washington last winter, that the Northern members, almost en masse, had demanded that no more slave territory should be annexed to the confederation, and the Northern States possess the voting power to carry out their determination. The Southern States will not permit this territory

The Southern States will not permit this territory to come into the Union as free territory; and, between the two concending interests, it is not likely that the smallest fraction of a Mexican desert, with its basest of mongerel populations, will be added to our already widely extended domain. On this question, and on all others affecting Southern interests, we believe Gen. Taylor to be as safe as any seen in the South. He was hord, in the South any man in the South. He was born in the South—raised in the South—his interests are entirely identified with Southern interests—his closest symdentified with Southern interests—his closest sym-athies and earliest recollections are all entwined pathies and earliest recollections are an enwined around Southern institutions—his family, fortune, first and oldest friends, all bound up in the South—are all sure parametes that he will be true to the land-the gave him birth—as true as the magnet

We have not the slightest doubt but we have not the slightest doubt but chart OLD ZACK is as much opposed to the infamous proposition of that leading Locofoco of Pennsylvania, Wilmot, who first introduced the resolution to exclude slavery from any territory that may be retained west of the Rio Grande, as any man in Mississipppi.

The Matagorda Tribune, a Southern slave sevocate of Whig principles, in showing the advantages that will result from the election of Gen. Taylor,

'If elected, our institutions we speak out-slavery, will fall under the protection of his eagle eye and his giant arm. Who does not know that eye and his giant arm. Who does not know that that institution is in some shape or other under daily discussion in Congress, and that at this moment, Southern members are ill at ease in consequence of new and fearful movements being made in relation to it? The old Nestor of the South, Mr. Calhoun, warns its that we are approaching a crisis pregnant with danger, and that before long we will have to toe the mark.

The papers hereabouts tell us that he is opposed to the extension of slavery—and that he will vero a bill to that effect. But how do, the Democratic papers of the South talk on this subject? One of our Alabuma exchange papers goes for Gen. Cass, and has a string of sentiments from him, from which we cut the following:

FRIEND MAY:

LYEN, July 24.

'I am opposed to the exercise of any jurisdiction by longress over the subject of Slavery.—Gen. Cass.

I do not see in the Constitution any grant of such a power to Congress.—Gen. Cass.

The Richmond (Va.) Enquirer, in a laborer article of two columns, tries to prove that he is wholly devoted to Southern interests. The Enquirer the article alluded to :-

And again this same Democratic paper says,

And again this same Democratic paper says,

'Does not the foregoing brief expose show what
are the opinions of Mr. Cass on the Wilmot Proviso? It proves him to be the firm and avowed
opponent of this distracting and pestiferous proposition, and that he is 'opposed to the exercise of
jurisdiction by Congress over this matter.' It
establishes that Mr. Cass's opinions are coincident
with those entertained by the people of the Slaveholding States, are openly and firmly maintained,
by a power of argument and decision of purpose. holding States, are openly and firmly maintained, by a power of argument and decision of purpose, which proves his good faith and entire sincerity. It demonstrates that Mr. Cass thinks and so avows his opinions, that to exclude slavery from any of the territories of the United States, either by the action of Congress or that of the territorial legislature, or the people of a territory, 'would be to weaken if not impair the Union of the States, and would sow the seeds of future discords, which would sow the seeds of future discords, ould grow up and ripen into an abundant harvest of calamity.

The article winds up as follows:

'Had we no better evidence of the soundness Lewis Cass on Southern rights, the fiendish batred with which he is assailed by the Abolitionist Barnwith which he is assailed by the Abolitonis Darhiburners of New York would point him out as a man to be cherished and sustained by the South. But under his own hand we have most positive testimony, that the Southern Democracy may safely entrust its destinies to Lewis Cass and William O. Butler—and with this conviction, we enter the canvass, proud of the champions of our principles, and resolved to stand by our glorious flag.

The Montgomery (Ala.) Advertiser, of June 16,

The Democratic National Convention, having put down 'Wilmot provisoism,' and having de clared, substantially, 'that Congress has no power Territories than for the States, there remains but two other modes by which the extension can be limited to the States in which it now exists: First, the continued existence of the municipal laws pro-

the continued existence of the numerical laws pro-hibiting slavery, and second, the inadaptation of the soil and climate to slave labor.

If territory be acquired, which is not addipted to slave labor, slaveholders will not emigrate to it, and therefore, slavery will not exist in such territory,— to support slave, labor there is needed a mild climate, and a rich, productive soil : nature must be profuse in her bounties, or the slave will prove burthen to his master. Private interest would regulate this branch of the question, without any interference by government. If the country be adapted to slave labor, if the climate be mild, and the land be rich and productive—our people will go there, as they went to Texas, and make laws unto themselves.' If it be not adapted to slave labor, they will not go, and the country will neces-sarily become 'Free Territory."

This is equivalent to saying that wherever the This is equivalent to saying that wherever the soil and climate will permit slavery to exist, there they are determined it shall be; but where it cannot thrive—the inhabitants are graciously permitted to do without it. Can arrogance go much farther?

The papers from which we quote, are often talking of sectional, feelings. Have not the South always demanded that we should have a Southern condiction, aither one relief on the section of th

In America, on the other hand, we are in that by-gone stage of the European mind when the people worshipped the idols to which they were sacrificed. Time was when kings and kaisers, princes and nobles were sincerely reverenced as the sources whence the prosperity which the people won for themselves beneficently flowed. I see the Board have resolved to celebrate the lat of August by a Pic Nic in this place. A Pic Nic in Lynn! the most beautiful of the scaboard towns of Massachusetts. I suppose I'm far enough off from Cobasset to venture that assertion? A real Pic Nic in Lynn ought to last a week : some weather proph et should secure an old-fashioned easterly storm the et should secure an oid-tastituded easterly storm the week previous. You should take the whole town for your grore, and furnish every one with a pair o seven-league boots for the occasion. Then wha glorious excursions we could make in snug little par. ties, three thousand strong, to the Pirate's Glen, to the Lover's Leap, to the woods of Lynnfield, the rides of Woodend, the views of Highrock ;- seat rides of woodens, the views of Highrora; -acatter dwer the beaches and imagine what sort of voice Demosthenes had to make himself heard in such a roar, and gaze in silent awe on the beetling ramparts of Nahant, as the Ocean, rolling with the swell of a thousand miles, throws himself, heavy as a hundred Niagaras, on their still fronts. An occasion of this kind, however, the Board did not probably antici. pate. We will reserve such a 'protracted meeting for such time as the old heat of Lynn anti-slave now so many years chilled, shall revive. Meantime we may expect a good nucleus of, say, an audience of a thousand, for the contribution of the rest of the county to gather round ;-and we know we shall have active friends here to smooth the way for an agreeable meeting. Our untiring friend, James N. Buffam, has already secured a grove, which, if the eyes are to be judges, must yield the palm, to be sure, to that of Abington; but if you will allow each and lungs to have a voice in the decision, I will back Rail Hill Grove against Abington to any amount. Surrounded by lofty heights, yet not so much shut in as to exclude a fine current of air-the space for sober meeting clear, yet shaded by a goodly circle of pines-while the hills tempt one to cool walks, where you make your own paths—the speaker's desk furnished by nature with a fine back ground and sounding-board of thick pines-views from the hilltops for those who are weary of talk-a depot within three quarters of a mile, with cars running every hour-the times for a subject, and 'First August 1834 and 1838, as food for recollection-1 really think we shall contrive to make a pleasant day of it. especially as we are promised the aid of some voices never heard before, and of some that, heard so gladly once, have been silent, from various causes, for year, past. Beside, Essex county is fruitful of texts-Sushing has got home ! and King has written, not a book, to be sure, as Job wished, but what any wiser Job of our day would have wished, a letter!! hope the friends will come prepared to sing-to wake the woods with our lofty cheer. Let it not be a meeting for speaking, merely, but for social enjoyment. Another rule should prevail in all Pic Nic. that no one leave the ground to dine; the departure

I forgot to say, that in distinct recollection how uniformly lazy Yankees are-how fully they have caught the spirit of their Indian predecessors, ' that to walk is better than to run, to stand better than to walk, to sit better than to stand, and to lie better than to sit,' Omnibusses have been engaged to be on hand for the conveyance of all of this class from the depot to the grove and back at the usual rates. Now let us hold such a meeting as shall wrench from the hideous system we battle with, five years at least of horrid life, and make every body that was silly enough to stay away, pine with rage when they hear what they lost.

> POSTAGE AND NON VOTERS. Extract from a letter

I received a communication accompanied by a printed Sermon, postage on both unpaid, from a minister at the South, asking my views on Non-Voting and Disunion. Though pressed for time, I replied and sent him some documents. I received in return an answer of double weight, postage unpaid, intended for the Liberator. Your columns can be better filled than with the hasty impressions of one little acquainted either with the facts on which that discussion rests, or the off-repeated answers that have been made to his difficulties. One of the objections brought by this new and non-postage-paying cham pion against non-voters is, that while abjuring the Constitution, they continue to use the post-office and pay postage ! a crime, this latter, not chargeable upon him, evidently, whatever be his opinions inconsistency, indeed, if it be real, need offer no o stacle to my clerical friend becoming a non-voter, since he has but to continue his present shrewd habit, and cheat the devil entirely. The richness of a man's urging this objection in a weighty letter to a non-voter, and leaving the postage on it unpaid, will amuse you this hot weather. It would seem as if, abhorring the sin of which we, detestable heretics, were guilty, he took a wicked pleasure in sinking as still deeper in perdition by forcing us to comm double iniquity-to pay, not only our own postage, but that of our neighbors. To tell the truth, I have never felt any objection to paying postage on my own letters or those of others on my own business, but I confess to some bitter twinges of conscience in paying the postage of other men writing on their own business.

CONVENTION AT WILLIMANTIC .. FOURTH OF

A correspondent in Windham County, Ct., writes us respecting this meeting as follows :-

The morning meeting was not very fully attended. Geo. S. White of Canterbury opened the meeting with some general remarks, and after he had closed, a colored man, a Liberty party lecturer, by the name of T. James, from Maine, introduced a resolu tion censuring the two great political parties, and calling them a brotherhood of thieves. S. S. Forter moved an amendment by adding also the Liberty party. He spoke at some length upon the amend-

In the afternoon, the house was crowded; Abby Keller Foster seconded the amendment offered the morning, and made a very able speech, which brought up Liberty party on their feet a number of times, with interrogations, &c., which were answered very much to the discomfort of the questioners, oftentimes. During Mrs. F.'s remarks, Mr. James tepeatedly attempted to get the floor, intimating that he was out of order, as she was speaking to the main question, as he said; but it did not so appear, therefore she was allowed to go on and show why the Liberty party ought to be embraced in the resolution, until the gentleman finally intimated that he thought that she was occupying the time to prevent him from speaking, and showed so much anxiety about it, that she yielded the floor to him. He had not spoken many minutes before the audience began to manifest signs of impatience, and the house was soon relieved of at least half of its burden. James undertook to show that the U. S. Constitution was anti-slavery, &c., but he made such work of the matter, that the Liberty party themselves were ashamed of his defence. I think that the meeting was calculated to do good, inasmuch as the Lib. erty party position was so fully exposed that they themselves, or at least some of them, felt the truth of the position which was taken by our friends. Others, however, evidently lelt very sore. One gentleman in particular, who said that Liberty partyism would be very much advanced by the remarks of the day. Mr. Foster replied in rather a humorous manner, and told the gentleman if such was his sincere conviction, he ought, by all means, to employ him to come and spend a few months in the place, for Lib-

ome from Worcester and spend three days with them, and labor to the best of his ability if they would bear his expenses. The offer, however, was not accepted. The meeting continued until past six

THE FOURTH AT NEW BEDFORD. New Bedrond, July 10th, 1848.

MR. GARRISON : The Glorious Fourth' passed off here with less noise, less drunkenness and fewer accidents than noise, ress considerable amount of gunpowder was burnt, and the bells rung several hours, much to the gratification of modern patriots, but as much to the annoyance of certain invalids whose childish feeling deserve but little regard where national glory is concerned. Sick persons should bear in mind, that private inconvenience should never be put in comtition with public good. Large numbers of our eitzens weut in different directions on pleasure parties. An eration was pronounced before the city authorities by Mr. John Holmes of this place. He was set apart, some years since, by consecrated hands for the gospel ministry; but, from some cause, left that high calling for the study of Law. Whether finding this more congenial to his feelings, or whether cha grined at not obtaining a chaplaincy in one of our ar ships-or whether more anxious to gain the applause of men, than 'that honor which cometh from God, is not the province of us, miserable infidels, to determine; to his own master he standeth or falleth. Well : on the third, a gentleman of hig , worth here, knowing how prone time-serving orators are, in this age of expediency, to forget great truths on this day. wrote him a letter, reminding him of the solemn as pect of our national affairs, and beseeching him not to forget, on that most appropriate occasion, the millions of outraged slaves in our midst. This, as he professes to have been experimentally taught in the school of that Saviour who came down to earth to hind up the broken-hearted, to send deliverance to the captive, & ... we were free to expect at his hands. At the time appointed, the oration was delivered; the ruling object of which seemed to be to eulogise the national government and to flatter the American people. Not a solitary word was attered from which the existence of American Slavery could be even inferred. But he poured out the vials of his wrath on those whose 'brute hands' bave been laid upon the Constitution, thus giving any true friends of human rights present good reason to behere that he considers this covenent with death of higher authority than that glorious gospel which be had publicly acknowledged as his supreme law. Thus did the mountain produce a mouse. Thus has an additional evidence been furnished, that if the chains of the slave are broken, the Priest and the Levile will have no hand in the work; or never until they find their craft in danger. Then they will flock to our standard, making conscience of necessity. I speak of the mass, making honorable exception of some in this city. Among these few, Mr. John Weiss, the Unitarian clergyman, stands preeminent. With uncommon felicity of diction, uni ted to fine talents, he utters great truths, makes radical assertions, with that dignified calmness of manper which can hardly fail to convince all, offending none. He evidently loves truth better than his own ease or comfort. It was our privilege to hear a sermon delivered by him last Sunday evening on Christian Freedom. No attempt will be made here to describe it. Be it sufficient to say, that it was worthy the subject and the man. We earnestly wish it could be published, and read by every man in the

My Dear Sir, let us be encouraged in anticipation of the stirring events that await us. The advocates of freedom are rapidly increasing, while mercenary politicians are trembling in their shoes. May the approaching time of trial strip them of their disguises and exhibit them to the world as objects of abhorrence. Yours ever, VIATOR.

Рамонти, July 17, 1848.

The Anti-slavery Convention met at Leyden Hall, n this town, Sunday morning, July 16. Wm. W. Brown called the Convention to order. Bourne Spooner was chosen President, and Ansel H. Harlow

Atter some introductory remarks from Mr. Spooner. Mr. Parker Pillsbury came forward and offered the following Resolutions:

1. Resolved, That the leaders and Editors of the Whig party in denouncing Gen. Taylor as a Mur-derer, and the Mexican Butchery as a 'War of Rapine and Murder '- and then forthwith nominating him to the Presidency, and seeking to float him into office through the sea of blood he shed in that very war, are guilty of inconsistency and absurdity that Jer. vii. never were heard of before, and of depravity that would sell at high premium, among brokers, in the foulest Perditions in Scripture or in Song.

2. Resolved, That these men would never call on the people to vote for their candidate under such cirlike themselves, or slaves and fools, as they have long been called by the South.

3. Resolved. That those clergymen who have volunteered to endorse Gen. 'Taylor's character for morality and goodness, after fighting two most bloody and brutal wars upon innocent men to secure and extend Slavery, and for nothing else, have showed themselves so utterly incapable of appreciating Christunity as to be below salvation, except by an infilite extension of the Divine Economy.

4. Resolved, That 3,000,000 Slaves and 3,000,000 professing Christians in a country of only 20,000,000 inhabitants, proves the religion of that country go d for nothing, or those good for nothing who profess it, and in either case, the Church of such a country cannot be too soon overthrown.

Resolved, That when the clergy declare they have ower to abolish slavery in one single year, and then instead of doing it, volunteer to assert and defend the moral and religious character of General Taylor, who was nominated, only because Southern Whigs would vote for nobody else, and would vote for him only because he was a determined slaveholder, and has spent many of the last years in butchering Indians and Mexicans, to secure, extend and perpetuate Slavery and for nothing else, when the clergy, or any part of them, can do this, and still be held as Christian ministers, that body is proved too frightfully vile to be described by human language, too mean to deserve human sympathy, and too depraved for the safety of human society while it is suffered to go at large in the midst of it.

Resolved, That the friends of the slave in Plym outh and Plymouth county, have recently sustained a deep and sorrowful bereavement in the sudden death of our beloved friend and co-worker, Desire Harlow; but we are still cheered by the assurance that our loss is her unspeakable gain. And we do most confidently hope that her mantle, when she iscended to Paradisc, fell on many to whom she as enceared, in baptisms of new love and deep devo ion to the cause of humanity, to which she devoted her life-and now, while the flowers with which we have strewed her grave, have scarcely faded, and while her loving, but now liberated spirit may be bending from heaven over us, we do solemnly renew our common obligations to be faithful and true to the cause of the slave, and the great principles of hu manity, until victory shall crown our labors, or death shall release us from them.

Mr. W. W. Brown offered the following : Resolved, That the waning power of the clergy, the unsettled state of the Church, the breeking up of political parties, and the acknowledgement of slave

erly party was retrograding; and he (Mr. F.) would holders themselves, that they can no longer depend ADAMS'S BOSTON DIRECTORY. upon the people of the nominally Free States to re-turn the fugitive slaves, are sure indications that by such demonstrations.

the rich and influential portion of the people, and those who do their bidding, were at their sectarian meetings as a matter of course, deeming this day loo holy to vindicate the rights and liberty of three mil-

ever existed on the globe.

Mr. Nathaniel H. Whiting made a speech, with much effect, for the panting, down-trodden fugitive slave, which was received by the audience with tremendous applause, although it was Sunday.

Miss Stone's first appearance in Plymouth has not been without its good effect upon the consciences of Saturday, July 8, and her news is a week later than those who heard her speak, particularly upon the by the last steamer. female portion. Her modest deportment, her clear and incontrovertible arguments, have made an impression here, never to be forgotten.

On the whole, the Convention went off well, with-

out the least opposition on the part of the pro slavery

casting balls in their possession. The mea surrendered without resistance.

The resolutions, as above reported, were adopted unanimously.

FITCHBURG, July 11, 1848.

MR. GARRISOS —

Dear Sir,—The Fitchburg Hale-storm has at length blown over, and, as was expected, but little damage has been done. The atmosphere, however, is somewhat purified, and we can see some things more clearly than before. We can now see that Mr. Trask made a harmless mistake, and that Mr. Hale said, in public, one thing, and declared most fully and unequivocally elsewhere, and not in public, quite quother. This is rather an important piece of information, for, if Mr. T. has not made another mistake, people will hereafter care as little to dispute about Mr. Hale's opinions as about the color of the cha-

people will hereafter care as little to dispute about Mr. Hale's opinions as about the color of the chambelon.

This flea-bite occurrence has also brought to view another thing, long concealed from sight, viz., the reason why the politics of the Liberty party are called Bible politics. I have long known that the Liberty party was conceived in sin and brought forth in iniquity, and that the professed abolitionists of the party intended to enter the offices of the government by perjury, but I did not know that this fundamental principle, lying, was borrowed from some 'ancient book.' But 'all men are liars,' and he who is shrewd enough to keep out of the lake of trouble, in which all liars shall have their part, for four weeks,' may thank God and take courage. It is said to know that the professed expounders of ancient writings, as a body, are false prophets, prophesying smooth things and teaching the people lies; but it is sadder yet to know that they do it from principle, and by authority.

I speak not now of Mr. Trask in particular, for he is far better than the profession will average, and is as much of a reformer as a minister well can be, and not come out of Babylon. But it is a lamenta.

and not come out of Babylon. But it is a lamentable truth, that, with few exceptions, the craft enter their pulpits on every Sunday and teach, for doctrine, the commandments of men, and lie in God's name; and lest they should not be believed they say, Am I not God's minister? is not this his holy word? and do I not minister in holy things, on his holy day, and in his holy temple?

I will close with a quotation of a few words from an ancient book, for the special benefit of all whom they may concern.

Trust ye not in lying words, saying, The temple of the Lord, are these. Behold, ye trust in lying words, that cannot profit. Will ye steal, murder, and commit adultery, and swear falsely, and come and stand before me in this house, which is called by my name, become a den of robbers in your eyes? Behold, even I have seen it, saith the Lord. And now, because ye have done all these works, saith the Lord, and I spake unto you, but ye heard not; and I called you, but ye answered not; the strength of the Sth of Little at 3 clear to PM of the sth of Little at 3 clear to PM of the sth of Little at 3 clear to PM of the sth of Little at 3 clear to PM of the sth of Little

The toothless are there supplied with complete sets of teeth, inserted on a new principle, and sustained in their place by atmospheric pressure, so firmly that several pounds may be raised by them without removing the plate, which is made, as well as the solder, of the best of gold. In this way, many persons have been enabled to wear determination not to hear him, and the hall was of the said of the hall, and the appeals of the chairman to restore silence were in wain. The confusion having at last somewhat abated, Gen. Cushing made some remarks which could be heard only by those within a few feet of him. The Gazeite says that the reception of Gen. Cushing was anything but flattering, while the efforts of some, perhaps over-zealous friends, to drown the 'discordant notes' by forced cheers, only added fuel to the flame.

ments, no partisan or sectarian partialities, no hidden aim, no double purpose; while, at the same time, every observer notices how happily its labors prepare the way for every good work: for, though specific in its object, its great principle of immediate individual reform, without awaiting the gradualisms of party pohtics, legislative action and judicial decision, is one of universal application.

This, therefore, is the mode of operation, which commends itself to our reason and our feelings. The agents and friends that such an association of necessity draws forth, are the ones that we wish to circulate. In the councils of such a body, where all persons have equal rights of membership, the zehole collective energy and judgment are coustantly in use, and the chances and means of success consequently doubled.

Hence we find it to be our duty, in preparing for the FIF1 EENTH NATIONAL ANTI-SLAVERY BAZAAR, to commence in FANEUIL HALL BOSTON, on Thursday DECEMBER 21st, to devote the funds then raised, to sustain the AMERICAN ANTI-SLAVERY SOCIETY, in its successory where the understant of the confidently appeal to all good hearts every where, in aid of so noble an enterprise.

In prison for debt,- with an eager eye He looks from his casement small : And watches the crowds that are possing by, Till the evening shadows fall.

In prison for debt,-thro' the long, long night, He lavs on his bed of straw : And wonders why Might is always Right, At least in the eye of the law

And he wakes at the morning's earliest dawn, And peers through the twilight gray. To eatch the first glimpse of her who will come, With the morn's first glimmering ray.

With her sickly boy she will come at morn. And the wretched man will weep; For thinner is growing his child's slight form, And paler his wife's pale cheek.

The strong, proud man is wasting away His life in that prison air; And not long may the mother's spirit stay, And her child is dying there.

Dava pass-and the father's heart grows weak, And he watches in vain, in vain She comes with tears on her sad, pale cheek; He saw not his child again !

And his wife grows thinner, her step more slow, Her eye is unearthly bright, Alas, alas for that prisoner's wo, She is dying before his sight!

She is dying of want, of grief and despair, She is passing slowly away! Breathing out her life in that prison air, With no hope to bid her stay

No hope on earth-there is only one, Who cares for that lone one now : Her heart in broken, her spirit is gone, There is death on that sad, pale brow !

There is death, stern death in that lonely room, A spirit hath passed away, She breathed out her life in that prison gloom-She will rise to a brighter day

Her last thoughts were his-her last words were prayer,
O deal with him gently now :-

His heart is all full of grief and despair, There's revenge on his dark'ning brow.

'Tis hard to be poor-to strive for bread As the dying would strive for life ; To toil with an aching heart and head, 'Tis a hard and bitter strife.

Tie harder to breathe in a prison air, Shut up in a living grave;
And your loved ones dying of want and despair, With no mortal hand to save !

which that gentlem'n alleges to have made; namely, the restoration of lost eye-sight, and the preservation of the natural sight, without the use of spectacles.

Professor Bronson is well known to our citizens, in connection with several departments of physical science, in which he has been very successful. He now claims to have made further advances in that important science, and to have discovered the true system of developing the body and the mind, of remedying physical and mental delects, and of restoring by natural means the powers which have been lost by a departure from the laws of being.

Improvement continues as the remedy is pursued. Other cases might be stated; but these will other cases might be stated; but the most beneficial effects have resulted from the use of Professor Brot.son's mode of restoring lost or defective eye-sight. In all case, as far as we have seen, the improvement cases might be stated; but the most beneficial effects have resulted from the use of Professor Brot.son's mode of restoring lost or defective eye-sight. been lost by a departure from the laws of being Dr. Bronson has taken house No. 20 Temple place, in this city, where he proposes to apply his principles to general practice.

In relation to the eye-sight, Prof. Bronson appears before the public with an announcement which startles, as well from its novelty as from the extreme simplicity of the remedy which it proposes for defects which have hitherto been considered in extrapolated to have the foot bridge at the Falls ready for crossing on the fourth of July. This will be a great curiosity, and many will avail themselves of the adventure. The following is to be the composition of the railroad bridge:

Number of cables for bridge

Number of strands in each cable

Number of strands in each cable is, that he has discovered the means whereby the natural eye-sight can be preserved during life without the aid of those annoying, but hitherto indispensable, helps,-spectacles; that sight can be restored after persons have used glasses many years; and further, that near sightedness can be remedied. All this, it is alleged, can be accom-plished in a very short time, and without any sur-gical operation, or pain, or injury whatever. The curative process consists wholly or unialy of a series of manipulations, the object of which is to pre-

the sight, he first undertakes to ascertain the facts, and then to investigate the reasons or causes of those facts. The human eye, aside from its external facts, is naturally round; and hence he assumes that, if the shape can be retained, other things being equal, the natural sight will be preserved. If the eye, from the sight is aided by conex glasses. In such case, the sight is aided by conex glasses. If the eye, on the other hand, becomes picked or sharp, it produces near-sightedness, and concare spectacles are resorted to, to restore the equilibrium. And so it is, likewise, that when the shape of the eye undergoes a change, from the natural process of shrinking, or from what ever cause, persons who were near-sighted when ever cause, persons who were near-sighted when young, become far-sighted when old. And again, for reasons which may be accounted for on the same principle, old persons frequently acquire what is called second-sight, after having used

spectucles for years. It is not our purpose to express an opinion as to the soundness or fallacy of this theory. Whether it be philosophically rational or absurd, it is not our province to decide. That the doctors will disagree about it, there can be no question. The very simplicity of it will probably constitute the most scrious hindrance to its reception among those who are too prone to believe that so easy a thing as washing in Jordan can eradicate so difficult a disease as the leprosy. But, beying had opportunity to learn some of the practicar results of the first person pass over it—Mr. Ellet, the builder. P. Bronson, that we might bring to the test of our own observation, a new discovery which that gentleman alleges to have made; namely, the restoration of lost eye-sight, and the preservation of the natural sight, without the use of spectacles.

Bronson, found her sight gradually but certainly improving; and now, after about two months only of attension to the system, has put aside her glasses, and can read and work with as much comfort and ease as when sixteen years of age; and the improvement continues as the remedy is pursued. Other cases might be stated; but these will show, beyond dispute, what it was our only object to show, that the most beneficial effects have resulted from the use of Professor Brosson's mode.

HOWARD A HARSH FATHER.

Howard was a philanthropist, a blessing to the word; but, as a father, however affectionate, he word; but, as a father, however affectionate, he seems to have been unwise; a mistaken sense of duty caused him to pierce his own heart. He thought it his duty to insist on obedience merely to the authority of parental power, instead of enforcing it by the attractiveness of fatherly feeling and consistency. Natural faith and affection are not blind, but well able to distinguish their proper objects. He taught his child, while stil an infant, not to cry, and never, in all its childhood, permitted it to have what it demanded with tears! God forbid that our Father in heaven should thus treat us. bid that our Father in heaven should thus treat us. He expects us to be in earnest. But, said Howard, He expects us to be in earnest. But, said Howard, the government of a being that cannot reason about the fitness of things, should only be coercive and in fear. He overlooked the discernment that is keener than reason; he forgot the heart has to be educated as well as the head, and that it is roled aright only as long as love is visible in power. A child that must always govern its feelings, from fear of others, will soon be a hypocrite and a typical to the fetters unout it are removed the statement of the stat rant. When the fetters upon it are removed, the soul will rush into selfish extravagance, and perhaps perish; like a bird from a cage, unfit to use its wings, and aiming only at pleasure, while incapable of providing for its own wants. Thus Howard's son was in infancy coerced without fondness; who was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; where the soul was in infancy coerced without fondness; which is the soul was in t ard's son was in infancy coerced without fondness; in youth, commanded to be moral; in manhood, became debauched, and then mad.—Man and his Mo-

tives, by George Moore.

I attended a short time a sitting of the Club of the Amis des Noirs, (friends of the blacks.) There were not so many of the African descent present as I expected to see. Some twenty in an assem-bly of two hundred men were all I counted. They were of all variations, from the unmixed suble to the shade hardly distinguishable from white. The President himself was about one-fourth African. He presided with dignity and ability, and seemed to me to be decidedly the best educated and most intelligent man, and the best speaker of the Club. One of the secretaries too was a colored man. The blacks did not keep to themselves, but sat promiscuously with the whites upon terms of strict equality, and in some cases apparently of intimacy. The motto 'Liberty, Equality, Fraternity, seemed to be sincerely practised. Several of the colored gentle-men were accompanied by white females—one entered with two, one on each arm. All the spenk. ers of the evening, except the President, were whites.—Phil. Ledger.

ECCLESIASTICS IN ITALY.—The kingdom of Naples alone has eighty-five prelates, with nearly one hundred thousand priests and persons of religious orders, the monks forming about one-fourth of the whole! In this number the priesthood of Sicily is not included, which has its own share; no less than three archtishops and eleven bishops. Even the barren isle of Sardinia, has one hundred and seventeen convents! Can any rational mind wonder at the profligacy, the idlences, and the dependence of the Italian peninaula, with such examples before it? The Pope daily has between two and three thousand monks loitering through the streets of Rome. Besides these, he has on his exclesistical staff, twenty cardinals, four and the streets of Rome. Besides these, he has on his exclesistical staff, twenty cardinals four. the streets of Rome. Sadden Fatality.—The sudden death of two, and illness of others, of the children of Mr. Francis Weitzell, at Harper's Ferry, Va., two or three weeks since, led to the belief that the family had been poisoned, but a post mortem examination having since been had, a colored woman arrested at the time has since been discharged. Mr. Weitzell has since fallen dead upon his porch, and the remaining members of the family, Mrs. Weitzell and an infant, are in an ex-

Nearly a Fatal Accident.—Yesterday afternoon, as a train of cars were coming down the Germantown railroad, the locomotive came in contact with a horse and cart at the corner of Poplar street. The result was the killing of the horse, the breaking of the cart, and, very fortunately, only brusing the driver, George Shrank, on his head and side. He was thrown out of the cart with some violence, and escaped the wheels of the train. The horse was killed instantly. The N. Y. True Sun says a letter was rec
